Fidium Fiber is your new connection.

Finally, an internet provider experience based on what customers actually want.

We're building a new fiber network to increase the speed and reliability of your internet. **What does that mean for you?**

- Connect all your TVs, laptops, tablets, smartphones and smart home devices at consistently higher speeds...up to 2 Gigs!
- A dedicated connection so you don't have to share bandwidth with neighbors
- We don't "throttle" your speed during peak times of the day like other providers
- You get the same ultra-fast upload AND download speeds
- You'll enjoy more uptime – fiber is less prone to outages
- No contract to tie you down and no hidden fees to tie up your wallet

Pre-order at FidiumFiber.com/PreOrder

Alerts: You'll get emails as we complete our network build and get closer to bringing service to your home

Availability: If your town is not currently on our build plan, you can raise your hand by signing up to pre-order and tell us to come to your area next

Refer your friends: Consumer interest is a big driver of how we expand service – and by referring your friends, you can help bring this ultra-fast connectivity to your neck of the woods even faster!
